Tech Stack

- Front End: JavaScript, Typescript, Lit Element, Polymer, React, Vue, AJAX, Axios, HTML5, CSS, CSS3, SASS open-wc, jQuery, ing-bank/lion, and several component and pattern libraries, native browser APIs, @web/test-runner, karma, cypress, a11y accessibility platform.
- Tools: Node.js, Yarn, NPM, Bower, GIT, Azure DevOps, VS Code, Docker, Open shift
- Methodologies: Scrum, Kanban

Encora Inc.

August 2018 – November 2019

Asia-based product engineering services company with forty-eight offices in fourteen countries.

Senior Full-stack .NET Developer

June 2019 – November 2019

Deployed in Malaysia for a W.H.O. client project.

Responsibilities

- Transfer onshore to Integrate and contribute to an in-flight project with a tight deadline.
- Information gathering, planning breakdown and estimation of requirements.
- Design of features and functionalities for specific requirements of current project.
- Design UI/UX, along with corresponding Services and database objects and procedures.
- Documentation of written code, processes, and architecture.

Achievements

- Development of an automated passport request and tracking system.
- Implementation of additional features after release: Mass Update of requests, Search, Reports

Tech Stack

- ASP.NET, C#, RESTful APIs, Entity Framework, jQuery, Razor Pages, Bootstrap, CSS, MS SQL,
- Tools: Visual Studio, NuGet, TFS, Azure DevOps, Jira
- Methodologies: Scrum, Kanban

Senior Full-stack .NET Developer

August 2018 – May 2019

Manila-based project

Responsibilities

- Information gathering, planning breakdown and estimation of requirements.
- Design of features and functionalities for specific requirements of current project.
- Design UI/UX, along with corresponding Services and database objects and procedures.
- Documentation of written code, processes, and architecture.
- Transition and Knowledge transfer to replacement peer.

Achievements

- Development of a Readiness Survey creation and report generator website.

Tech Stack

- ASP.NET, C#, RESTful API, Entity Framework, jQuery, Razor Pages, Bootstrap, CSS, MS SQL
- Tools: Visual Studio, NuGet, TFS, Azure DevOps
- Methodologies: Scrum

Accenture Inc.

December 2011 – January 2018

Leading consulting firm in the world.

Senior Full-stack .NET Developer, Scrum Master

October 2013 – January 2018

Responsibilities

- Information gathering, planning breakdown and estimation of requirements.
- Mentorship and coaching of team members. Promotion of best practices.
- Implementation and coaching of scrum practices and principles.
- Support Team members by identifying roadblocks and distractions for the team.
- Code and Peer Reviews.
- Research, Introduction, and implementation of new and stable technologies.
- Collaboration with Product owner with backlog management and refinement.
- Design of features and functionalities for specific requirements of current project.
- Documentation of written code, processes, and architecture.
- Development of several internal apps including blog, survey tool, poker planning, dashboard.

- ASP.NET, ADO.NET, Entity Framework, C#, RESTful API, LINQ-SQL, Razor Pages, MVC, AJAX, Web Pages, HTML, HTML 5, jQuery, Bootstrap, CSS, SASS, MS SQL, React.js, React Native, Angular.js, PHP, Cordova, Ionic, Firebase, Hangfire, SignalR, etc.
- Tools: Visual Studio, NuGet, TFS, Azure DevOps/Team Services
- Methodologies: Scrum

Full-stack .NET Developer

Dec 2011 – Sept 2013

Responsibilities

- Re-platforming of an existing completed web app for records management.

Achievements

- Successful re-platform of records management web app to a new tech stack.

Tech Stack

- ASP.NET, C#, VB.net, Web Pages, HTML, jQuery, CSS, MS SQL
- Tools: Visual Studio, TFS, Azure DevOps/Team Services
- Methodologies: Waterfall

Key Skills

Full-stack – Experienced in multiple programming languages from front end to database. Proficient in multiple front-end libraries and development concepts.

Strong Analytical and critical thinking skills – Experienced in development of tailor-made systems for different clients and have encountered and solved countless unique problem scenarios.

Adaptive Learner – Solid base knowledge but still eager to learn and adapt to the ever-changing trends and improvements in the web development space.

Communication and teamwork abilities – Warm and approachable with strong relationship-building skills; experienced in collaborating and being part of several global teams.

Technical Skills

- | | |
|--|--|
| • C#, VB.NET; TypeScript; JavaScript | • Cordova, Ionic |
| • Web Components, React JS, Vue JS, Lit Elements, Polymer, jQuery, Angular JS, Knockout JS | • AJAX; Axios |
| • CSS, CSS3, SASS, Bootstrap | • Node.js, NPM, Express |
| • HTML, HTML5, ASP.NET Web Pages/Razor, ASP Web Forms, PHP | • RESTful API, Web API, WCF, ASMX, Web Services, |
| • GIT, TFS, Azure DevOps. | • ADO.NET, Entity Framework, Dapper, LINQ. |
| | • Microsoft-SQL Server, MongoDB, Redgate |
| | • MVC3; Firebase, DevExpress, Hangfire |

Education

Bachelor of Science in Information Technology

Saint Louis University, Baguio City, Philippines

Hobbies and Interest

- Loves long walks, cycling and occasional runs.
- Always excited to go on hikes with occasional camping.
- Frustrated DIYer and Home Improvements fanatic.
- Travel enthusiasts – locally for now.
